## PERSONAL PROFILE

Currently studying at UWE. I am a 23-year-old multimedia creator. I make a lot of things: music videos, documentaries, cartoons, posters, adverts, and everything in between. As I'm a jack of all trades within media, it's my goal to have a career with a production company where my skills can be put to use in every medium that's thrown at me.

## EXPERIENCE

### **GENISIS CLOTHING, Southampton** — *Short media campaign for new shirt release.*

Planning permission, photography and video editing to promote the new release. A series of social media posts and videos led to the shirt being sold out within the first 2 weeks of its release.

### **ISSUE ONE MAGAZINE, London** - Logo and page design.

The new logo design was created in collaboration before the monthly release of its 3rd issue.

### **PIZZA ROVA ADVERT, BRISTOL** — short social media stylized advert.

Here I was responsible for the script filming and directing with the rest of the crew working with lighting and sound.
